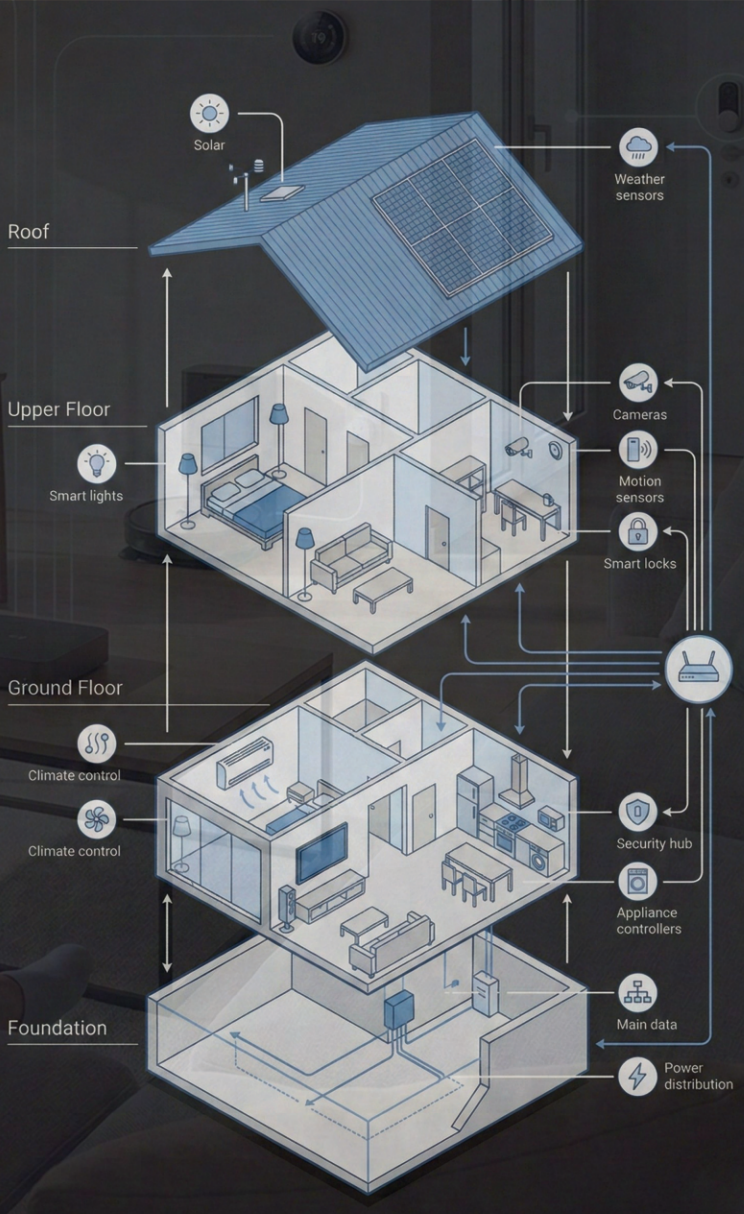
- 💡 Lighting & Dimming
- 🌀 Fans & AC
- 🪟 Curtains & Blinds
- 🔐 Smart Locks & CCTV
- 📹 Video Door Bell
- 📡 Sensors & Alarms
- 🤖 Robotic Vacuum Cleaner & Mop
- 📘 Mobile & Voice Control

WHAT IS A SMART HOME?

Smart Automation Helps You

- Control lights, fans & appliances easily
- Save electricity automatically
- Improve safety for children & elders
- Control your home from anywhere

NestSkill designs automation that feels natural, not complicated.



NestSkill Smart Homes – Designed for Real Living

Live a relaxed and secure life in your dream home with NestSkill smart automation solutions, where technology quietly works in the background to improve everyday living.

Advanced safety and security systems protect your home like a digital fortress, while smart controls ensure peace of mind whether you are inside or away.

Lights, curtains, fans, and appliances respond intelligently to your presence and daily routine. Your home understands your needs and creates the right comfort and mood automatically — without complicated operation.

Imagine your gate opening automatically as you arrive, lights welcoming you in the evening, and family members accessing the home securely with smart locks. Convenience is no longer a luxury — it is a part of daily life.

Control lighting, curtains, audio, video, and home theatre systems with a single touch on your smartphone or wall switch. Experience a premium lifestyle, powered by simple and reliable automation.

Your home also contributes to energy efficiency. Smart lighting and appliances operate only when needed, helping you save energy while reducing unnecessary power consumption.

With NestSkill, smart features are not just about technology — they are about creating a home that is comfortable, secure, efficient, and future-ready.

💎 LUXURY

A REFINED LIFESTYLE WITH INTELLIGENT CONTROL AND ELEGANT AUTOMATION

⚡ ENERGY SAVING

SMART USAGE REDUCES POWER WASTAGE AUTOMATICALLY

🎧 LIFESTYLE

TECHNOLOGY THAT BLENDS SEAMLESSLY INTO DAILY ROUTINES

📱 CONVENIENCE

SIMPLE CONTROL THROUGH MOBILE, VOICE, OR SWITCH

🔒 SAFETY & SECURITY

SMART LOCKS, CCTV, AND ALERTS FOR COMPLETE PROTECTION

🛋️ COMFORT

YOUR HOME ADJUSTS ITSELF FOR MAXIMUM COMFORT

AUTO PILOT HOME

A home that works on your schedule

Now your home can keep up with your busy lifestyle. NestSkill smart automation allows your home to work quietly in the background — so your mornings are smoother, your days are efficient, and your evenings are relaxed.

Pre-schedule or automate lights, geysers, curtains, and appliances directly from your smartphone. Your home follows your routine, not the other way around.

5:30 AM – GEYSER TURNS ON
Warm water ready before you wake up

6:00 AM – CURTAINS OPEN
Natural light starts your day

7:30 AM – COFFEE MACHINE READY
Morning routine, automated

1:00 PM – VACUUM CLEANING
Cleaning while you're away

3:00 PM – WASHING MACHINE ON
Efficient use of daytime power

6:30 PM – OUTDOOR LIGHTS ON
Your home welcomes you back

LIVING ROOM AUTOMATION

Where Comfort Meets Style

Your living room sets the mood of your home.

What Gets Automated

- Lighting scenes for different moods
- Curtains opening and closing automatically
- Fan control from phone or switch
- Humidity & Temperature Control

✓ Perfect ambience
✓ Effortless control
✓ Elegant living experience

BEDROOM AUTOMATION

Designed for Rest & Relaxation

Your bedroom automation follows your daily routine.

Smart Features

- Control lights, fan & curtains from bed
- Good Night Mode turns everything OFF
- Wake-Up Mode gently turns lights ON

✓ Better sleep
✓ Peaceful mornings
✓ Total comfort

HOME THEATRE AUTOMATION

Cinema Experience at Home

Enjoy movies without touching multiple switches.

Movie Mode Automatically:

- Dims lights
- Closes curtains
- Switches ON TV or projector

✓ Immersive viewing
✓ One-touch control
✓ Pure entertainment

KIDS ROOM AUTOMATION

Smart, Safe & Parent-Friendly

Automation helps children develop better habits safely.

Designed for Kids

- Bright study lighting
- Soft night lamp
- Parent control over devices

✓ Child safety
✓ Controlled screen time
✓ Parent peace of mind

ROOM FOR SENIOR CITIZENS

Safety, Simplicity & Independence

Automation designed specially for elders.

Elder-Friendly Features

- Large, easy-to-use switches
- Optional voice control
- Emergency alert button
- Automatic night lights

✓ Independence for elders
✓ Reduced accident risk
✓ Family reassurance

BATHROOM AUTOMATION

Small Space, Smart Savings

Even bathrooms can be energy-efficient.

Smart Bathroom Features

- Lights ON when occupied
- Exhaust fan runs automatically
- Geyser switches ON/OFF by time or temperature

✓ No forgotten geysers
✓ Lower electricity bills
✓ Improved safety

CORRIDOR & COMMON AREAS

Light That Appears When You Need It

No more searching for switches at night.

Automated Lighting

- Lights turn ON when someone walks
- Switch OFF automatically
- Soft night lighting

✓ Zero effort
✓ Night safety
✓ Power saving

SMART SECURITY SYSTEMS

Complete Protection for Your Home & Family

Your home deserves more than basic locks and alarms. NestSkill Smart Security Systems combine intelligent monitoring, instant alerts, and proactive protection to safeguard your family, property, and peace of mind—24/7.

🔐 SMART LOCKS & ACCESS CONTROL

Know Who Enters. Control Who Can.

- Fingerprint, PIN, Card & Mobile App Access
- Temporary codes for guests & staff
- Auto-lock & door status alerts
- Remote lock/unlock from anywhere

Benefit: No lost keys. No unauthorized entry. Total control at your fingertips.

🚪 VIDEO DOOR PHONE (VDP) / VIDEO DOORBELL

See & Talk Before You Open

- Two-way audio & video calling
- Mobile notifications when someone rings bell
- Snapshot & video recording
- Integration with smart lock (optional)

Benefit: Verify visitors before opening the door—even when you're away.

🔥 FIRE & GAS SAFETY

Early Warning Saves Lives

- Smoke detection
- Gas leak detection
- Instant mobile alerts
- Can trigger siren & emergency lights automatically

Benefit: Immediate notification before a small issue becomes a disaster.

📹 CCTV SURVEILLANCE

See Everything, Anytime

- HD indoor & outdoor cameras
- Live view on phone
- Motion detection recording
- Night vision & cloud / local storage options

Benefit: Monitor your home in real time and review footage whenever needed.

🚨 BURGLAR ALARM & INTRUSION DETECTION

Detect. Alert. Deter.

- Door/window sensors
- Motion sensors
- Loud siren on intrusion
- Instant phone notifications

Benefit: Scare intruders and alert you instantly.

🧠 SMART AUTOMATED RESPONSE

Security That Acts Automatically

- Lights turn ON on intrusion
- Siren activates
- Camera recording starts
- Mobile notification sent

Benefit: Your home reacts automatically—without waiting for you.

Warranty & Support

🔒 Product Warranty

- 3 + 2 Years Warranty on Automation Products
- (3 years standard + 2 years extended on eligible devices)
- Covers manufacturing defects and functional failures under normal usage.
- Warranty does not cover:
  - Physical or accidental damage
  - Damage due to water ingress, fire, lightning, or electrical surge
  - Damage caused by short circuit or improper power supply
  - Unauthorized modification or tampering

Our team assists with diagnosis, repair, or replacement as per warranty terms

🛠️ Installation Warranty

- 1 Year Installation Warranty

Covers:

- Wiring connections
- Module mounting
- Programming & configuration
- System stability related to installation workmanship

If any issue arises due to installation quality, NestSkill will resolve it at no cost during the warranty period.

🔁 Annual Maintenance Contract (AMC)

After the first year, customers may opt for an Annual Maintenance Contract (AMC) for continued support and preventive maintenance.

AMC Includes:

- Priority technical support
- Periodic system health check
- Software updates (where applicable)
- Troubleshooting & reconfiguration
- Minor programming changes

AMC pricing depends on system size, number of circuits, and site complexity. Customized AMC plans are shared after site assessment.

🤝 Ongoing Support Commitment

- Dedicated support team
- Remote troubleshooting whenever possible
- On-site visit support when required
- Upgrade and expansion assistance

NestSkill stays connected with you even after installation—because smart homes deserve long-term care.

Smart automation is an investment. Our warranty and support structure protects that investment for years to come.

What Makes NestSkill Different

NestSkill designs and installs easy-to-use smart systems for homes and offices.

1. Service-First, Not Product-First

Most automation companies sell boxes.
NestSkill sells solutions.

- No pushing of a single brand
- No fixed or forced packages
- Automation is designed after understanding how the family lives

👉 Clients don't buy gadgets, they get comfort.

2. Designed for Indian Homes & Families

NestSkill automation is built for actual Indian usage, not imported assumptions.

- Works with existing wiring
- Manual switches always remain usable
- Simple for kids, elders, and guests
- Handles power cuts and daily wear

👉 Smart, but never fragile.

3. Practical Automation, Not Over-Automation

We automate only what adds value.

- Lights, fans, geysers, curtains, security
- Presence-based, time-based, routine-based logic
- No unnecessary complexity

👉 If it doesn't make life easier, we don't recommend it.

4. Professional Engineering & Installation Discipline

NestSkill is led by a retired Indian Air Force technical engineer.
That reflects in:

- Structured planning
- Safe electrical practices
- Clean wiring & labeling
- Long-term reliability mindset

👉 Automation installed like critical infrastructure, not a gadget.

5. Brand-Neutral & Future-Ready

Technology should not lock you in.

- Mix-and-match compatible brands
- Easy future expansion
- No need to redo wiring later

👉 Your home grows with your needs.

6. Long-Term Support, Not Vanishing After Installation

Automation is not "install and forget".

- Clear training for family
- Service support available
- System designed to be maintainable

👉 We stay responsible even after the job is done.

"NestSkill doesn't sell smart devices — we design simple, reliable automation that fits your daily routine and continues to work for years."
